Lift 'n' Dump Model

Dump-Through Versatility

The Tommy Gate G2 Series is a dual-cylinder, parallel-arm design which uses a pair of hydraulic cylinders to lower and raise the lift.

G2 Series Lift-N-Dump models include all the same features and functions of other G2 Series lift gates, but also offer a unique dump-through capability to be used with dump bodies.

G2 Series Lift-N-Dump models feature pins to lock the lifts platform in place when not in dump-through mode.

G2 Series Features

- Dual hydraulic cylinders
- Virtually maintenance-free components
- Recessed control
- Larger platforms
- Fully-enclosed hydraulic system
- Lifting Capacity of 730kg
- Painted before assembly to ensure longevity of the lifts aesthetics
- Safety time out system
- Tow bar compatible
- Enclosed LED light kit
